

Team Project: Preparation for Final Exhibition

1. The Basics

My Team Project Topic:	Major themes and questions that we focussed on:

Action Project

What we did:	Who did it benefit?	What evidence do we have to show?

Options Trail

	Location/Person	Evidence we can show

Site 3		
Site 4		
Interview		
Data Collection		

Our most interesting findings:

Options Trail Question:	What we found out:

2. My Journey

Your team may have gone through different stages (Forming, Storming, Norming, Performing). Think about your experience of working with your team, and how it changed over the term. Use the lists of words available from the Team Galileo Wiki (Team Project page) to find some words that describe your experience.

Part of Term	Adjectives	Verbs	Emotions
Beginning			
Middle			
End			

My Picture

How to find the right image? You can use the words above to brainstorm about what pictures, photographs or images could help you tell your story. There are links on the Team Galileo Wiki (Team Project Page) to a number of image databases. **Put the words you have written above into the "Search" bar and see what pictures come up!** You can even make your own image or take your own photograph to use in the presentation.

3. Conclusions

Challenges:

What do you think were the biggest challenges working in your team? Think of challenges you experienced:

- when working with your team mates (leadership, efficiency, conflict, negotiation, compromise)
- in trying to get things done for your projects (setbacks, rejections, failures, disappointments)

1.	2.
How did you overcome this challenge? If you could not overcome this challenge explain why not. Suggest what you could have done to make things work.	How did you overcome this challenge? If you could not overcome this challenge explain why not. Suggest what you could have done to make things work.
1.	2.

Outstanding personal qualities...

Describe a time or event during the team project when one (or more) of your Team Project group demonstrated outstanding initiative, courage, open-mindedness, leadership

--

Greatest Achievements!

What do you see as your team's greatest achievements? Why?
